

Next-Gen Digital Costing 5D BIM Cubicost

Indonesia

31 March 2022 09.30 WIB

Next-Gen Digital Costing: 5D BIM Cubicost

Digitalization now encompasses the entire AEC industry. When major shifts impact the industry, the only way to benefit from them and continue to thrive, is to stay agile and keep up with the pace of change.

As technology developed further, BIM-based digital cost management platform gives AEC players high levels of accuracy, productivity and real-time collaboration. It is clear that AEC players on BIM digital cost management platform have significant competitive advantages to deliver successful building projects over those that aren't, especially with the latest government requirement to implement BIM in all projects.

For the third year in the row, Glodon Cubicost New Product Launch Event is going to be digital and broadcast online. We are cordially invite you to attend our live event gain insight to innovative techniques, stay current with the industry's leading Digital Cost Estimation Solutions and be at the forefront of 5D BIM technology.

Change happens. Be prepared, be proactive, and be in control of costs on all your building projects.

Elevate Your Cost Estimation Process. Reserve Your Seat Now.
