The Evolving Role of Quantity Surveyors in the Digital Age

How can quantity surveyors catch up with the digitalisation trend in the

construction industry? Listen to Glodon talk with Bola Abisogun OBE, the Founder and Chairman of DiverseCity Surveyors and an elected Fellow of RICS, on quantity surveying, data and technology application, information sharing and collaboration, vocational skills, sustainable development and more.

Highlights of Pacific Association of Quantity Surveyors Congress 2022

Pacific Association of Quantity Surveyors (PAQS) Congress 2022 was held in Singapore from September 9 to September 13. The main theme of the congress focuses on the disruption and transformation in the built environment. Glodon Vice President Pierpaolo Franco delivered a keynote speech on the digital transformation of construction industry from concept to solution from the perspective of quantity surveying". In addition, Country Product Managers Jason Wong and Myke Ong presented two technical papers in the parallel sessions with their 5D BIM expertise on how industry players can achieve digital transformation with Glodon cost estimation solution.

Leaders Emphasise Digital Solution and ESG for Construction Industry at ULI Summit

ULI Asia Pacific Summit is a signature real estate event held on Aug 29 in Hong Kong with live-streamed content from around the world and a virtual audience reach of over 500 industry participants. Glodon Vice President Pierpaolo Franco joined young industry leaders at a virtual group forum, exploring how digital solutions and new materials have enabled smarter and healthier ways to build, manage and use real estate.
